FaceClipper 3100 Intelligent Clipping Machine

A New Industry Standard

- **Intelligent operation.** Features a microcomputer control and 10.4" LCD touchscreen, allowing you to interface with the machine and program runs.
- **Advanced servo motor.** Runs cool and efficiently, producing up to 630 feet per minute with maximum clip delivery of up to 7,200 per hour, with spacing accuracy of +/- 1 mm – the most precise clip placement on the market.
- **Easily accommodate a variety of rail sizes.** The adjustable-height clipping head can accommodate rails from 5/8" to 2" in height and in lengths up to 95".
- **Easy operation.** The advanced design makes it easy to operate, allowing any trained operator to reach a high level of productivity.
- **Service and technical support.** Vertex Fasteners is committed to providing our customers with world-class customer service and support. Our dedicated regional sales/service technicians are Vertex employees. They know the product, the business, and their customer, and are there to serve you. Vertex also has a well-trained staff of customer service, production, and engineering professionals that are ready and able to assist you.

The FaceClipper 3100 uses 19-gauge, high-strength, all-steel embossed face clips that provide strength, durability, and holding power.

- Integral nails enter rail at different points to prevent splitting and provide superior holding power.
- High-profile, upturned edge to provide an excellent target for easy spring-up and hammer closing.
- Extended polypropylene liner extends past the ends of the clip to prevent metal-to-metal noise.
- Liner and spring locks mechanically lock liner in place and accurately position sinuous springs in clip.
