Maxi-Load C-Ring Tool

with extended magazine and automatic feeder

- Spend less time on maintenance.
- Extended magazine holds three times more than standard C-ring tools.
- Easy-loading 300/strip box design.
- Automatic feeder continues feeding – simply slide the C-rings onto the magazine.
- Improved magazine design whereby the sharp tips of the C-rings are better covered throughout the entire length of the magazine. This makes the tool safer to handle and will help to prevent hang-ups on any fabrics and or clothing.
- Automatic feeder
 - Continues feeding automatically. Simply slide the C-rings on to the magazine and you're ready to go.
 - No more need to pull a spring feeder behind each and every strand of C-rings loaded.
 - No more problems with the spring feeder slipping off the C-rings and snapping back.
 - No more damage or kinks on the constant force spring.
 - No more damage or kinks on the guide for the feeder.
 - Easy replacement of damaged constant force spring.

Tool part no: VA0437
C-ring part no: H40785
