ProStick™ Spring Stapler

- The QuietFire™ valve greatly reduces tool exhaust noise.
- All ProStick™ parts are completely interchangeable with competitors' model BCAR tools.
- Tools and parts are a fraction of the cost of our competitors'.
- Conversion kits are available to convert your current tools to "Lightweight" or "QuietFire™" tools.
- Rounded lower handgrip, with no-slip lip, gives better control and increased operator comfort.
- Built-in flats on the handle make tool disassembly a breeze.
- Vertex WireLok™ spring staples incorporate 2 separate adhesives, resulting in superior holding power.

ProStick™ Spring Stapler models:

- VA0317 Single staple, standard weight
- VA0318 Double staple, standard weight
- VA0319 Single staple, lightweight
- VA0320 Double staple, lightweight

ProStick™ Spring Stapler specifications:

- Weight:** 7.04 lbs. (standard weight)
5.56 lbs. (lightweight)
- Height:** 35"
- Width:** 2.5"
- Length:** 14"

WireLok™ Spring Staples for all ProStick™ models:

- H40446 3/4" length, round crown, 16-gauge, alternating divergent point, 28,576 staples per box
